Thanks, Christine. I'll be at work tomorrow, but not Friday. Had enough of Earth Week?   Larry

I will be around the next two days so if you want to let me know when it's up on oscnet, then I can add the links on the About Penna page. The other option is that you can go to the bottom of the About Penna page, claick on the "About EPA Web Editor" link and request the changes that way.

Another round of Dimock data ...

Lawrence Teller   to: WebChanges   04/18/2012

         Cc: Christine Dibble, Michael Kulik, Roy Seneca, Jennie Saxe

... is expected to be ready for posting in the next day or two. As in the recent past, the files will be posted to the osc.net website, with link(s) from the "About PA" page. We'll see whether this makes the Dimock activities list of links sufficiently long to use an anchor tag to move the Dimock links--but not the Dimock header--farther south on the page. Thanks for your help with this time-sensitive posting.   Larry
